

Biggest attraction:

Four manors, unique nature experience at Guldborgsund, the bird sanctuary, The Medieval Center

Around Guldborgsund there is almost a constant view over the sound. Here are e.g. many swans, fishing herons and sea eagles. Beautiful manor landscape, wide fields, living fences, beautiful beech woods and the apple plantations of the manors.

Advertised route: Sundruten www.visitlolland-falster.dk/panoramaruter

Traffic: Unpaved roads, woods roads and asphalted highways with modest traffic – the exception is 4,5 km from Hjelm Kystvej to the entrance at Toreby Vestergade in Hamborgskoven, here there is no bicycle path and uneven binding – no hills.

Route description: Start at Slotsbryggen and follow the signs of the Sundrute on Strandboulevarden through the Indianerstien to Ny Kirstineberg Manor (1). We pass Pandebjerg Manor (2), Klodskovgård and Vennerslund

manor (4), which are private properties. The woodland path through the woods Nordskoven continues on the dike, from where you have a beautiful view to the bridge Guldborgbroen (5). The small town Guldborg (6) lies on both sides of the sound. Here there are yachting harbours, bathing beach, restaurants, supermarket, B&B, pitch with shelters, several good fishing areas, different road shops and a camping site. From Guldborg you drive to the bird sanctuary and over the tunnel to Hjelm – after the bird sanctuary the field road is pretty bumpy for a cycle trailer, you can also take the highway to Majbølle. At Toreby Vestergade you drive into Hamborgskoven (11). Follow the asphalt road through the forest and turn left at the big tujas. Out of the forest you find the Medieval Center (12), the biggest tourist attraction of the area. From here you follow Sundruten back to Nykøbing Falster town, where there is a big selection of shops, restaurants and accommodations.
