Route description: Start at Slotsbryggen in Nykøbing Falster and follow route **420** on Strandboulevarden through Indianerstien to Ny Kirstineberg Manor **(1)**. There are no shopping possibilities except in Nykøbing Falster, therefore you have to bring along a lunch basket! Towards the entrance to Ovstrup woods the route brings you through the landscape of Falster with open plains, living fences and the view to a forest. In the middle of Ovstrup woods **(5)** there is a path down to a hidden, beautiful shelter area **(6)**. In Hannenov woods there are growing several big, old oak trees. The oldest are 200-300 years old. Detour can be recommended to Borremosen **(7)**. A desolate nature pearl, where the woods reflect in the dark lake. You can go around Borremosen on paths. Back on Virketvej you can look into Falsters Fælles Virke – the Virket banks **(8)** – some banks from 1158. Here lies Virkethus **(9)**. From here you continue to the South along "Motionsslängen" through the woods until "Naturstyrelsens" office, where you turn left along the asphalt road towards Tingsted **(10)**. Already at a long distance the pink church in Tingsted shines. On the other side of the church Tingsted Landsting **(11)** is found. Shortly after the church you turn left on Trættevejen, to the left on Bangsebrovej through Bangsebro. Shortly in the woods you turn towards Bangsebro through the woods. In the out-

skirts of the Sønder Kohave woods you turn left past the small river Tingsted å and right at the nature playground. From here the tour goes home on Østre Allé past Guldborgsund Zoo **(13)** back to Slotsbryggen.
